

## **Symposium on Radiation Epidemiology**

September 28, 2011  
13:30 – 17:00 pm

Room P204  
Johannes Gutenberg – Universität Mainz

**Chair: Maria Blettner, Hajo Zeeb**

**13:30-14:10**

**Roy E. Shore**

Vice Chairman & Chief of Research  
Radiation Effects Research Foundation, Hiroshima, Japan

**Applications of Hiroshima-Nagasaki A-Bomb research to  
epidemiologic studies of nuclear accidents**

**14:10-14.50**

**Noboru Takamura**

Professor and Chairman, Department of Global Health, Medicine  
and Welfare, Nagasaki University, Graduate School of  
Biomedical Sciences, Nagasaki, Japan

**Lessons from Chernobyl to Fukushima**

**coffee break**

**15:00-15:40**

**Werner Rühm**

Professor and Head of Individual Dosimetry  
Institute of Radiation Protection, National Research Center for  
Environment and Health, Munich, Germany

**Data from Hiroshima and Nagasaki: ongoing research on  
dosimetry**

**15:40-16:20**

**Markus Löbrich**

Professor and Head of Radiation Biology and DNA Repair  
Technical University Darmstadt, Germany

**Radiation biology for the epidemiologist**

**coffee break**

**16:30-17:00**

**Florian Dufey**

Unit Radiation Epidemiology  
Federal Office for Radiation Protection, Neuherberg, Germany

**Leukemia mortality risk from ionizing radiation in the cohort  
of wismut uranium miners 1946 – 2003**
